

CONSTRUCTION OF THE BRIDGE OVER THE SAVA RIVER NEAR GRADIŠKA

- **Employer:** BiH Ministry of Communications and Transport and Hrvatske ceste d.o.o. Zagreb
- **Constructor:** Integral Inženjering a.d. Laktaši, Đuro Đaković Montaža d.o.o. Slavonski Brod and Zagreb-Montaža d.o.o. Zagreb
- **Supervision:** KREBS + KIEFER Eastern Europe GmbH (Germany) and IGH Institute d.d. Zagreb
- **Value of the Project:** BAM 24,641,649.00 VAT excluded (this amount is the value of the project financed by Bosnia and Herzegovina)
- **Source of financing:** on the part of Bosnia and Herzegovina by the funds paid for the licence for universal mobile telecommunications systems (Budget of Bosnia and Herzegovina) and grant funds under the Agreement between Bosnia and Heregovina and the European Bank on co-financing the construction of the interstate bridge Gradiška.
- **Project Commencement Date:** October 2019
- **Project status:** 70% of construction works were executed up to 30 June 2021
- **Project Description:** The bridge over the Sava River near Gradiška is located on the Corridor E-661 which is very important for Bosnia and Herzegovina and the Republic of Croatia. It connects Balaton in Hungary over Virovitica and Okučani with Banja Luka and

Split. The Bridge Construction Project includes: a connecting road section 50,79 m in length in the Republic of Croatia; the interstate bridge over the Sava River 462,25 m in length and 22,60 m in width which will have four traffic lanes, two in each direction; a connecting road section 411,54 m in length to the bridge in Bosnia and Herzegovina. In line with the Agreement between the Council of Ministers of Bosnia and Herzegovina and the Government of the Republic of Croatia the costs of construction of the connecting sections on their respective territories shall be borne by contracting parties, while the costs of the bridge construction will be covered in equal shares by the contracting parties (50 % each).
